

Karl Saxon from Creative Colours is a first class craftsman and I have no hesitation in recommending him for his workmanship and endorsing his competence as a very capable and qualified painter. His training and knowledge always remains at the forefront of his thinking (unlike 95% of tradesmen!) enabling him to be a very definite high achiever in his field.

It is all too easy to experience unsatisfactory workmanship and low standards of service these days making quality a truly rare and near unobtainable result.

Karl's level of customer service stands out.

He has a conscious attitude to do whatever the customer wants but if he thinks there is a better way or has another idea he will always discuss and advise, taking the time and making the effort to explain in a clear and generous manner.

He understands what it means to treat people's homes with care and respect.

Karl has an eager, lively and energetic attitude. He is enthusiastic, motivated, passionate and interested in his work.

It is refreshing and reassuring to know the work will always be done to a high standard and that the quality will endure.

His careful and thoughtful preparation has resulted in a superior finish for the work he has done in my home. He is hard working and always shows care and perseverance in everything he does. The quality of repainting work done by Karl to bedroom and bathrooms is vastly and obviously better than the initial paint work done by previous painters. *It is now a pleasure to look at.*

A great deal of clear painting has been done on Cedar woodwork to our extensive joinery including replacement and matching colour of lower wood glass beading. Karl was diligent with his preparation in repairing this paintwork that was previously damaged by water. It has been an absolute joy to look at the result and I could not compliment him enough. Only with such meticulous preparation could such an impeccable result have been achieved.

I am happy to share my acknowledgement and recognition of Karl Saxon of Creative Colours with readers of this website.

Sincerely

Debbie Mitchell
